

# LINDAL acquires manufacturing facility in Wismar, Germany.

The LINDAL Group, a global leader in aerosol dispensing solutions, today announced the acquisition of a new manufacturing facility in Wismar, Germany. This strategic investment marks a significant milestone in strengthening the company's European footprint, expanding capacity, and supporting long-term growth.

## **A Strategic Expansion of LINDAL's European Network**

Located about 40 kilometers east of LINDAL's plant in Schönberg, the Wismar facility offers 22,000 m<sup>2</sup> of usable space, including 9,000 m<sup>2</sup> of production, 10,500 m<sup>2</sup> of warehousing, and 2,500 m<sup>2</sup> of office and social areas. Designed for high-quality polymer processing and equipped with clean room manufacturing capabilities, the site provides a modern industrial base aligned with LINDAL's operational standards. Operating as a satellite to LINDAL's Schönberg facility, the site will further strengthen LINDAL's European capabilities. As a brownfield facility, Wismar allows faster production deployment over greenfield alternatives and offers substantial pre-existing infrastructure and excellent logistics links. These ad-vantages support quicker scale-up, higher service levels, and improved responsiveness to meet growing European demand.

## **Investing in a Future-Ready Manufacturing Platform**

In addition to the site acquisition, LINDAL will invest a further €17 million over the next three years to adapt the site and introduce advanced production technologies. This includes state-of-the-art automation, upgraded equipment, and improved material flows, positioning Wismar as a key component of LINDAL's "factory of the future" vision.

"This acquisition is a major milestone for LINDAL and reflects our long-term commitment to expanding our European footprint," said Thierry Zaionz, EMEA Group Operations Director. "Wismar provides an incredible platform for future growth, strengthens our global network, and enhances our ability to deliver value to customers while supporting regional development and high-skilled job creation." This strategic acquisition reflects the high confidence of LINDAL's shareholders in the company's long-term growth strategy and their commitment to continued investment in Germany as a key European hub. The expansion of LINDAL's operational footprint further strengthens the Group's market position and supports its forward-looking vision, essential in enabling the Group's future development and continued success.
